

GREATER JOHNSTOWN BUSINESS COMMUNITY PROFILE

DIVERSE BUSINESS BASE

Today's Johnstown business community features a multi-faceted economic base that continues to grow and diversify. To complement our traditional manufacturing industries, we've grown solid clusters of companies involved in the defense industry, advanced manufacturing, advanced materials, information technology, environmental technology, and biomedical/biotechnology.

JOHNSTOWN BUSINESS PARK

Phase II Now Open for Business ...

Johnstown, PA

OVERVIEW:

The Johnstown Business Park is located in Richland Township, Cambria County, Pennsylvania. The pristine 160 acre site is ideally suited for office, light industrial and warehouse/distribution facilities. All infrastructure and utilities are on-site, including digital fiber optic telecommunications. These light industrial parcels are shovel-ready. The park currently houses over 1,400 employees.

TRANSPORTATION:

The park is located within one mile of US Route 219 with access to the Pennsylvania Turnpike (I-76) and US Route 22. The John Murtha Johnstown Cambria County Airport (JST) is within three miles of the park, offering daily arriving and departing passenger flights. JST also offers general aviation services for public and private aircraft, including paved runways (the longest extending 7,000 feet), fueling, repairs, hangar space, and crash/fire services. JST is centrally located, no more than a 40 to 45 minute drive from anywhere in the region.

WORKFORCE

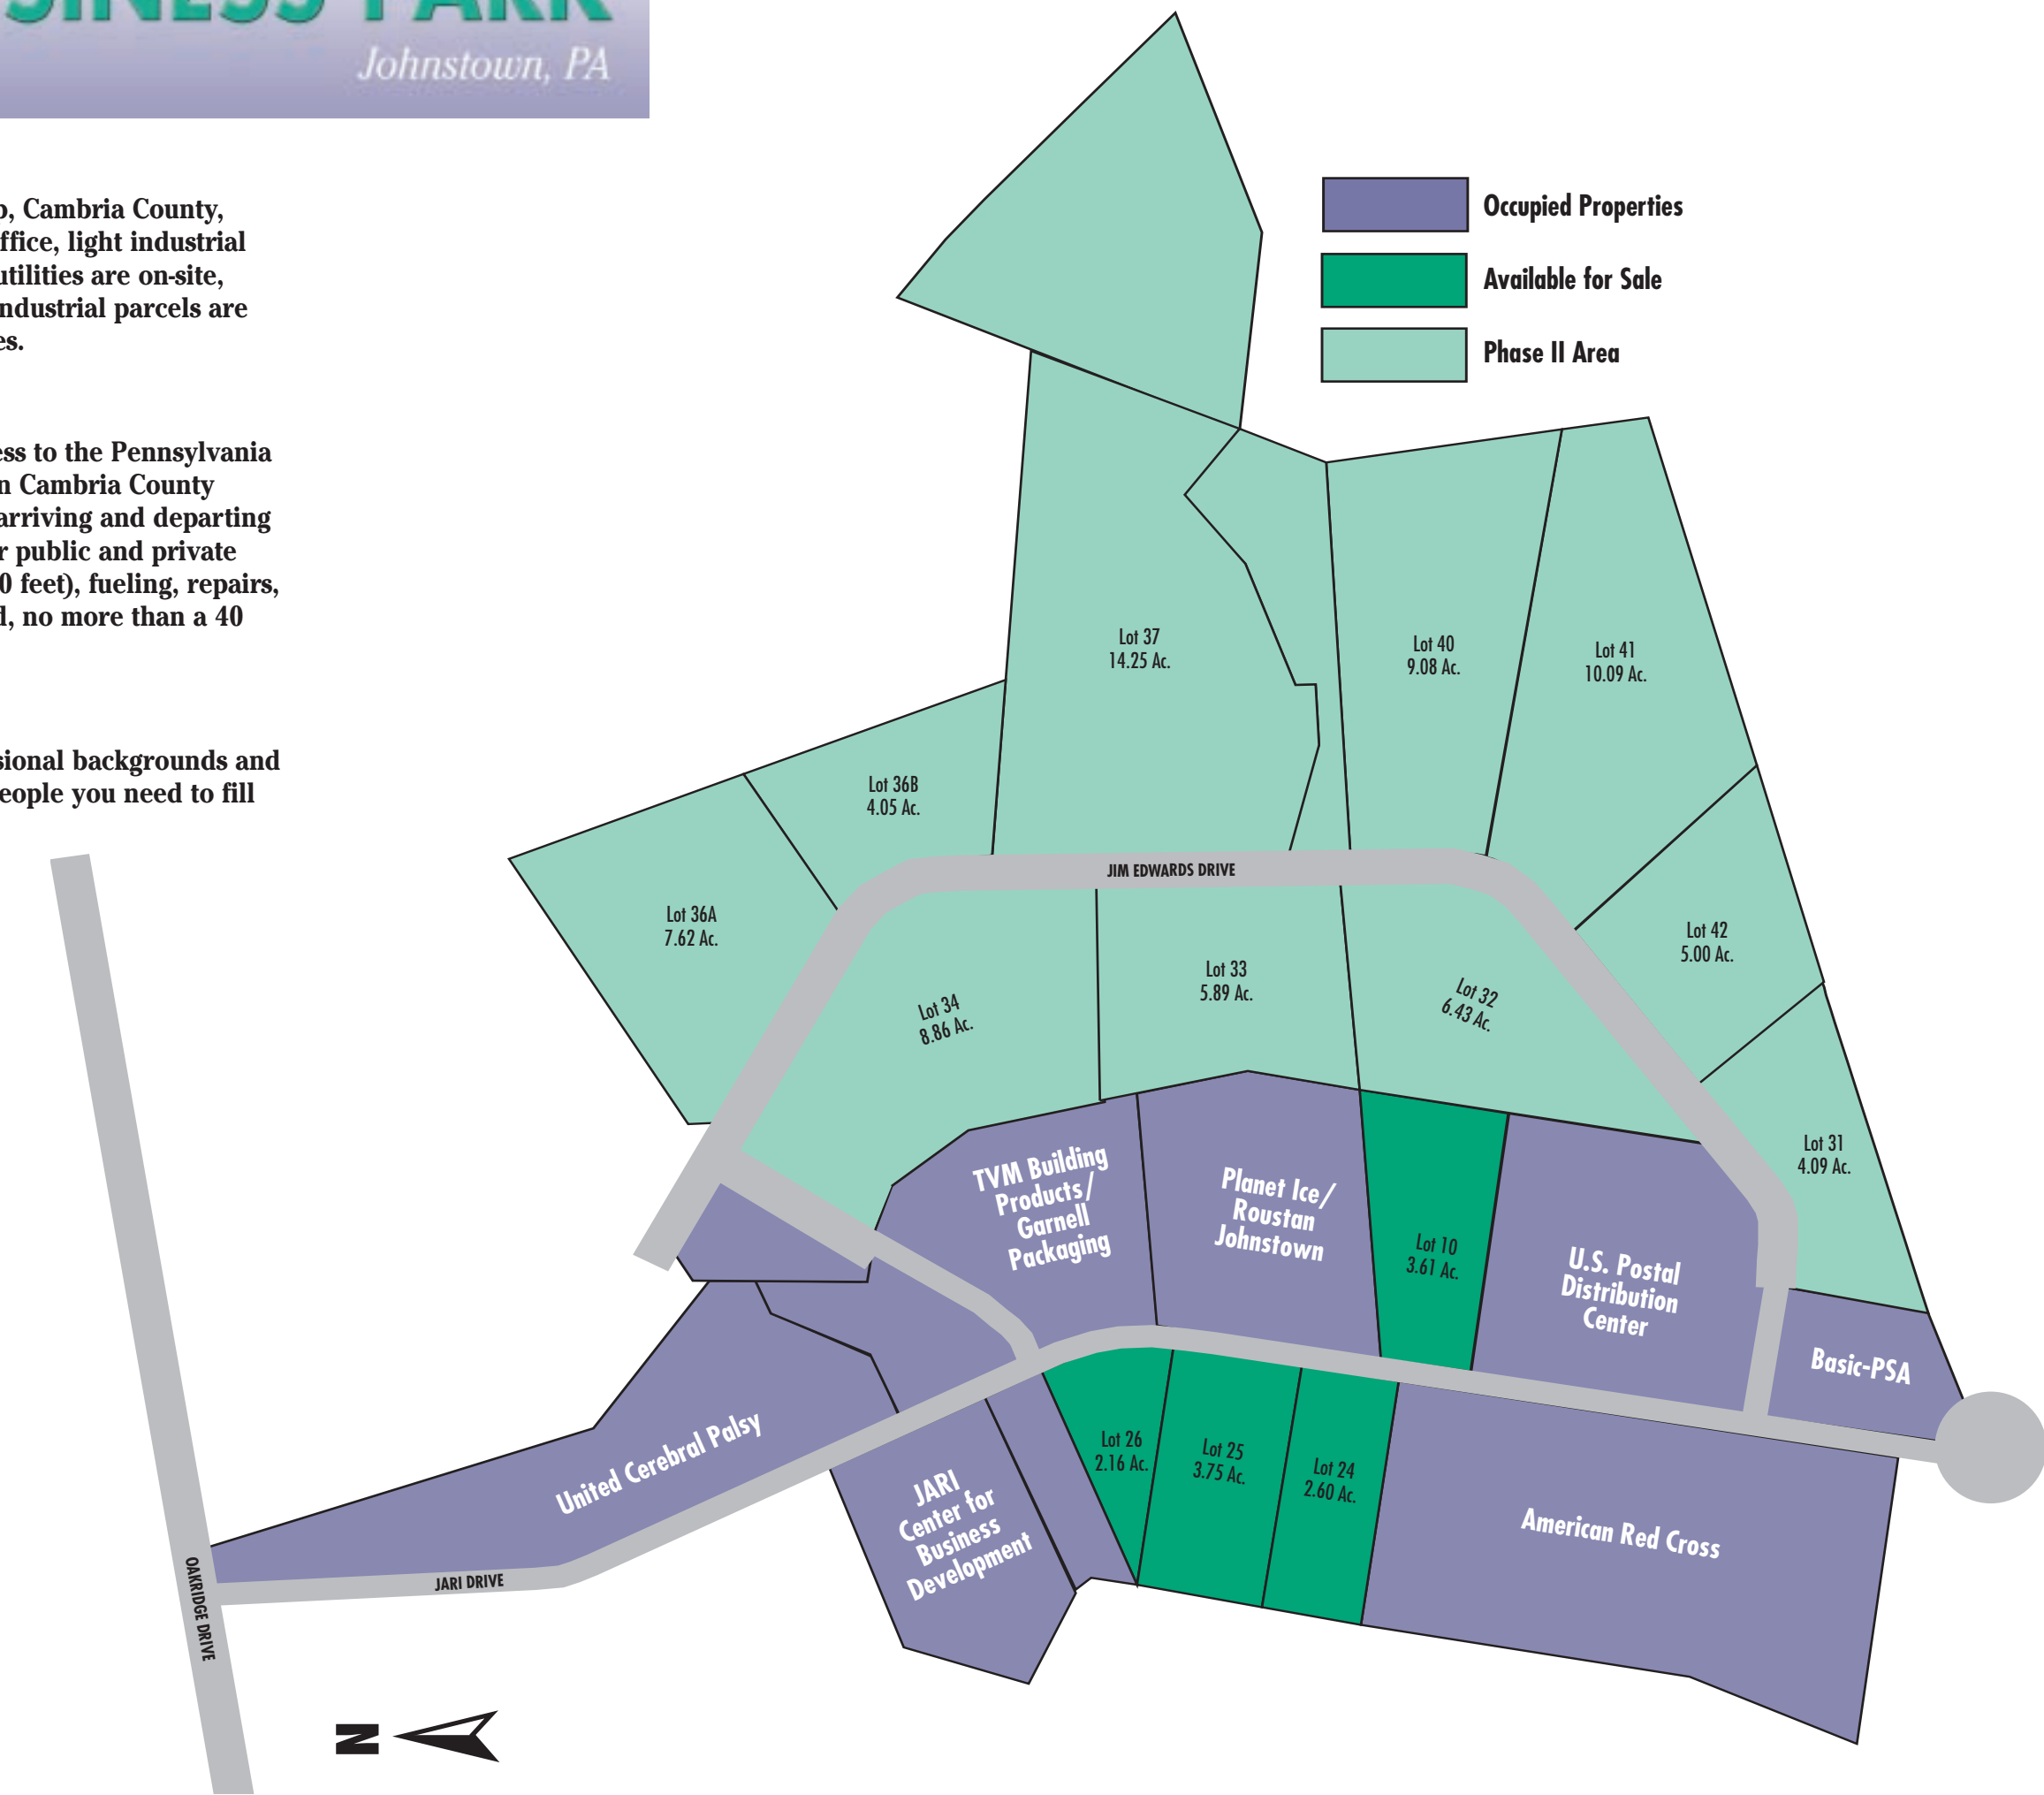

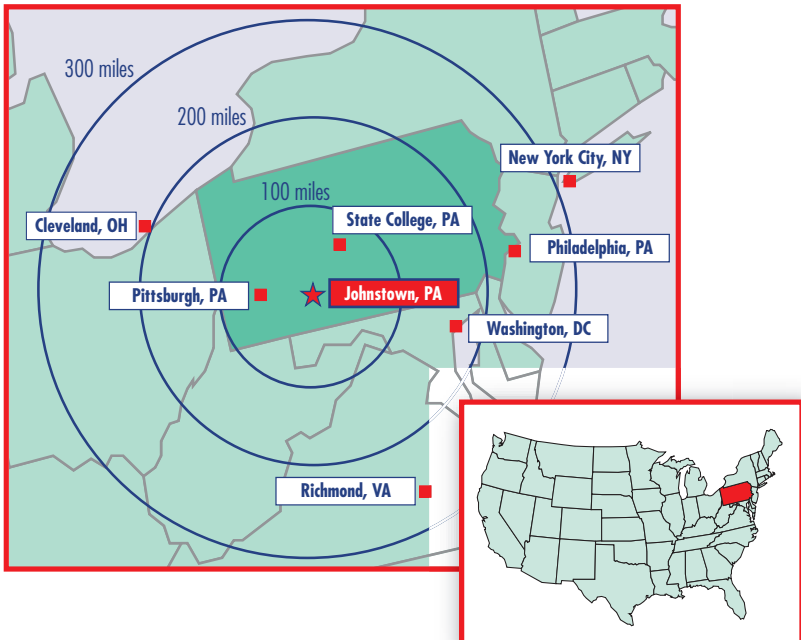

We have people from all walks of life with a variety of professional backgrounds and skill sets that are ready for the right employer. We have the people you need to fill the positions in your company.

DISTANCE TO MAJOR MARKETS

	Miles		Miles
Pittsburgh	70	Cleveland	195
New York	330	Buffalo	240
Philadelphia	240	Detroit	350
Richmond	277	Washington, DC	180

Why do so many national and international companies choose Johnstown, PA?

- Proximity to major markets in the Mid-Atlantic and Northeast. We're within 500 miles of over 50% of the U.S. population (6 out of 10 major U.S. markets) and 60% of Canada's population.
- A cost-effective, capable, and available workforce. Our typical salary costs for the same types of jobs are 18% less than Akron, Ohio, 48% less than New York, NY and 32% less than Los Angeles, CA.
- Numerous educational and training institutions feature specialized workforce training opportunities.
- The security, comfort, and affordability of a "small town" environment coupled with big city amenities. Johnstown has short commute times, reasonably-priced housing, and world-class health care; and is well below the national average in virtually every category for cost of living indices. Employees love living and working here, which keeps morale high, and absenteeism and turnover low.
