

Join the Vision 2025

We have studied, talked, listened, and asked what we as a community can do to move Johnstown forward. Together, we have created Vision 2025. You are invited to review its findings, learn of next steps and how our community can take them together.

Vision 2025 is a community-based effort that has created a vision around bettering our community through a strategic focus around three core areas: a vibrant local economy, life-sustaining landscapes, and a strong sense of community, all guided by an inclusive good governance model.

Visioning is the first step in seeing where to go and deciding how to get there. It's working in large places such as Pittsburgh and in smaller Pennsylvania communities such as Media. Now is the time for Johnstown.

The project team gathered information and input from a number of sources, including a community priority survey conducted through the Johnstown Tribune-Democrat in September of 2014, community planning documents, interviews with over two dozen community leaders and facilitated listening sessions with over 100 additional community members.

To learn about the findings, view the [Vision 2025 summary](#).
